

## Hand Sanitizer Permission Slip

Dear Parents,

When children are outside or during activities where soap and water are not readily available for use, hand sanitizer may be used as an alternative. Hand sanitizer will only be used on children over two (2) years of age and will be carefully monitored. The Department of Early Education and Care requires that we obtain written permission from the parents for the staff to use hand sanitizer on your child while under our care. **All hand sanitizer will be kept out of the reach of all children.**

Please **DO NOT** send hand sanitizer in with your child.

Please sign the permission slip form below:

Thank you,

Brenda Leigh DeMarco  
Program Director
